

RACHADA CHAIRANGSARIS (BAY)

FRONT-END WEB DEVELOPER

I am a self-taught web developer who's enthusiastic about coding and helping others and am looking for a great opportunity to put my talents to use. I am a team player with good communication skills who is flexible and ready to work with a passionate team of designers and developers. I learned how to code through hard work and dedication. Through a lot of persistence and discipline, I taught myself **HTML5**, **CSS3**, **Bootstrap**, **Javascript**, and **jQuery** making **responsive design** websites using both free and paid online resources such as Free Code Camp, Udemy, Youtube videos, and ebooks. Additionally, I went on to learn **ES6** syntax, **React.js**, and **Redux** in order to improve my coding skills and keep myself up to date with new programming languages.
