

RACHADA CHAIRANGSARIS (BAY)

FRONT-END WEB DEVELOPER

I am a self-taught web developer who's enthusiastic about coding and helping others, looking for a great opportunity to put my talents to use. I am a team player with good communication skills who is flexible and ready to work with passionate team of designers and developers. I learned how to code through hard work and dedication. Through a lot of persistence and discipline, I taught myself HTML5, CSS3, Bootstrap, Javascript, and jQuery making responsive design websites using both free and paid online resources such as Free Code Camp, Udemy, Youtube videos, and ebooks. Moreover, I went on to learn ES6 syntax, React.js, and Redux in order to improve my coding skills and keep myself up to date with new programming languages.
