RACHADA CHAIRANGSARIS (BAY)
FRONT-END WEB DEVELOPER

I am a self-taught web developer who's enthusiastic about coding and helping others and am looking for a great opportunity to put my talents to use. I am a team player with good communication skills who is flexible and ready to work with a passionate team of designers and developers. I learned how to code through hard work and dedication. Through a lot of persistence and discipline, I taught myself **HTML5, CSS3, SASS, Bootstrap4, Javascript, jQuery** and **responsive design** using online resources such as Free Code Camp, Udemy, Stackoverfolw, Youtube, and ebooks. Additionally, I went on to learn **Python** and **MySQL** in order to improve my skills on the backend side and understand the whole process of web applications.
